

CALLS GUARD INTO FEDERAL SERVICE

President Issues Proclamation—Service to Date from August 5 Next

TO BE SENT TO CAMPS

Call Covers Virtually All Members of Guard and Reserve Not in Federal Service

WILSON'S PROCLAMATION

WASHINGTON, July 9.—President Wilson issued a proclamation today declaring the entire national guard of this country into the United States service to date from August 5 next, and also calling the regiments out for active service.

The National Guard of New York, Pennsylvania, Ohio, West Virginia, Michigan, Wisconsin, Minnesota, Iowa, North and South Dakota and Nebraska will be called into the federal service on July 15 and sent to concentration camps in the south, although the draft will not apply formally to them until August 5.

Illinois Guard Call for July 25
Similarly the state troops from Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North and South Carolina, Tennessee, Illinois, Montana, Wyoming, Idaho, Washington and Oregon are called into the federal service on July 25.

Units from other states are to be sent to camps on Aug. 15. The call covers all members of the National Guard and the reserve not already in the federal service except a few officers and special units not required for tactical organizations.

To make certain that the purpose of the national defense act is carried out the proclamation specially declares the men drafted to be discharged from the militia status on August 5. In that way the constitutional restraint on use of militia outside the country is avoided and the way paved for sending the regiments to the European front.

Prior to the application of the draft, regiments in the northern and eastern section of the country are called into the federal service as national guardsmen in two increments to be mobilized on July 15 and 25. Many units already are federalized and presumably they will be mobilized with the other troops from their states. The guard from the other states will be mobilized on the day of the draft.

Move to Avoid Congestion
The arrangement was necessary to provide for movement of the regiments south to their concentration camps without congestion, and to the same end the division of states into these increments was revised from the original schedule.

The operative date of the draft was delayed until August 5 so that all regiments can be taken into the army simultaneously.

Fourteen camp sites for the sixteen tactical divisions into which the guard will be organized for war purposes have already been selected and the militia bureau is preparing the railway routing of the troops to the camps. Seven of the sites selected are in the southeastern department, five in the southern and two in the western. The two others will be in the southeastern department and until they are approved assignment of regiments to camps and divisions cannot be fully worked out. The two divisions positively assigned, the 19th, including the California guard which will go to Linda Vista, California, and the 20th including Oregon, Washington and other states in the northwest which will go to Palo Alto, Cal.

The president's proclamation follows:

President's Proclamation

"Whereas, The United States of America and the Imperial German government are now at war and having in view the consequent danger of aggression by a foreign enemy upon the territory of the United States and the necessity for proper protection against possible interference with execution of the laws of the nation by agents of the enemy, I, Woodrow Wilson, president of the United States by virtue of the authority in me vested by the constitution and the laws of the United States and thru the governors of the respective states, call into the service of the United States of and from the dates hereinafter respectively indicated, all members of the National Guard and all enlist members of the National Guard reserve of the following states, who are not now in the service of the United States except members of staff corps and departments not included in the personnel of tactical organizations and except such officers of the national guard as have been or may be specifically notified by my authority that they will not be affected by this call, to-wit:

PREDICT SHIP YARDS WILL BE COMMANDEERED

NEW YORK, July 9.—The commandeering of the ship yards in the New York and New Jersey districts by the United States government was predicted here today by an official of one of the large shipbuilding firms when informed that labor leaders contemplated calling a general strike in all of the yards unless the demands of those now out on strike were granted. Of the 12,000 men employed in the 35 shipbuilding plants in this vicinity, it was said about six thousand had struck. The men ask a wage of \$4.50 a day, an increase of about fifty cents a day over the present scale.

SENTENCE ANARCHISTS TO TWO YEARS IN PRISON

Emma Goldman and Berkman Given Maximum Penalty

Imposes \$10,000 Fine on Each of Prisoners in Addition to Prison Term—Take Prisoners' Pedigrees—Anarchists in Defiant Mood During Departure

New York, July 9.—Emma Goldman and Alexander Berkman, anarchists were found guilty of conspiracy to obstruct operation of the selective draft law by a jury in the federal court here today.

Judge Mayer imposed the maximum penalty of two years in the federal penitentiary and a fine of \$10,000 on each of the prisoners.

The jury deliberated forty minutes. In sentencing the prisoners Judge Mayer said he regretted they had not put their abilities to better use since they could have been "highly influencing elements in imparting knowledge to the foreigners who came here."

He added the government "is part of our lives and we are part of its life and so it shall remain the greatest standard in the world of true democracy."

The prisoners' pedigrees were taken. Berkman saying he was born in St. Petersburg 41 years ago. Miss Goldman gave her birthplace as Kovno, Russia. She said she is 45 years old.

Federal marshals started tonight for the prison designated for confinement of the convicted anarchists. Berkman will be taken to Atlanta, Ga., and Miss Goldman to Jefferson City, Mo.

Prisoners in Defiant Mood
The prisoners were in defiant mood during their departure. Marshal McCarthy permitted a few friends to tell them good bye and as they were being put into a patrol wagon, Berkman said:

"We are going straight to Petrograd by way of Atlanta and Jefferson City. We're glad to go."

"We are anarchists now and anarchists we will be when we come out," Miss Goldman shouted as they were driven away.

INDICT THREE MORE COAL COMPANIES

NEW YORK, July 9.—Indictments against three more coal companies, defendants in the government's suit alleging a conspiracy in restraint of trade against more than one hundred companies, were dismissed today by Federal Judge Grubb. The companies are the Ashland Coal and Coke company, the Penobscot Coal and Coke company and the Dry Fork Colliery company, are concerns with which W. L. Williams, dismissed last week, is affiliated.

At the same time Judge Grubb announced that the indictments against six other companies provisionally dismissed on Friday, had been reinstated. The companies are the Crystal Coal and Coke company, the Ironsides Coal Mining company, Flatfoot Coal Mining company, McDowell Coal and Coke company, Thomas coal company and the Mill Creek Coal and Coke company. Today's action leaves approximately half the accused concerns under indictment.

Arguments were started today and are expected to be finished tomorrow. It is probable the case will go to the jury late on Wednesday.

BLOOMINGTON STRIKE FINALLY SETTLED

BLOOMINGTON, Ill., July 9.—The strike of some employees of the Bloomington & Normal Railway & Light company was finally settled at a conference tonight, in which a contract was signed by the street railway company and the association of street railway employees. This contract provides for the reinstatement of all striking employees and an open shop policy on the part of the railway company. The company also granted an increase in pay averaging about 35 cents per day.

Colonel Freeman, commander of the second artillery, was in Springfield today, conferring with state authorities and said tonight that he was expecting orders at any time to depart from this city.

WILL INSTRUCT WOMEN.

Chicago, July 9.—Municipal classes to instruct women in the methods of conserving food products will be established here next week as a preparedness measure. Canning, drying, preserving and economical methods of cooking will be taught free in connection with the vacation department of the public school system.

CALL FOR AMBULANCE DRIVERS

Chicago, July 9.—A call for 4,500 men to drive army ambulance in France was received here today from Washington. It was said that the recruiting for American Red Cross ambulance sections has been discontinued as these sections shortly will be taken over by the army.

FORECAST BILLION BUSHEL CROP INCREASE

Department of Agriculture Issues July Crop Report

Predict This Year's Corn Crop Will be Largest in History Except One and That Four, and Possibly Five, Other Crops Will Make New High Records.

Washington, July 9.—A billion bushels increase over last year's production in the principal food crops is the response American farmers have made to President Wilson's mid-April appeal saying that upon them "rests the fate of the war and the fate of nations."

Corn Crop to be Largest.
The extent of the farmers' response was disclosed today when a production of 3,935,000,000 bushels of principal food crops was forecast in the department of agriculture's July crop report. It shows this year's corn crop will be the largest in history, except one, and that four, and possibly five, other crops will make new high records.

The corn crop, which with favorable weather from now on may equal the bumper yield of 1912, shows an increase of 341,000,000 bushels over last year, with a total of 3,124,000,000 bushels. The acreage is 14 per cent larger than last year.

The combined winter and spring wheat crop will be 38,000,000 bushels more than last year, with a total of 678,000,000 bushels. Barley, with prospects for the third largest crop ever grown, will exceed last year's production by 33,000,000 bushels with an output of 214,000,000 bushels.

Oats to Exceed Last Year.
Oats promise to exceed last year's crop by 201,000,000 bushels, the total production being forecast at 1,453,000,000 bushels. That is slightly under the record. Improvement expressed in now and harvest, however, may result in a record crop.

White potato production, on a 22-1-2 per cent increase in acreage, will be a record crop, with 452,000,000 bushels, or 167,000,000 bushels more than last year, not taking into account the home garden production which this year is estimated to be much larger than ever before.

Rye another record crop this year will amount to 56,100,000 bushels, 8,700,000 bushels more than last year.

Sweet potatoes will register a new high total with 82,000,000 bushels, or 11,000,000 bushels more than last year.

Rice production will be 34,400,000 bushels, the second largest crop ever produced.

Production of tobacco will break another record with a crop of 1,215,000,000 pounds, which is 64,000,000 pounds more than was grown last year.

A Record Crop of Potatoes

A record crop of white potatoes also is forecast with a production of 452,000,000 bushels. That would exceed the previous largest crop, grown in 1912, by 32,000,000 bushels. Prospects of the rye crop show a slight decrease from the June forecast, but the production will be a record with a total of 56,100,000 bushels.

Production forecasts of the country's principal crops, announced today by the department of agriculture (expressed in millions of bushels) follow:

Winter wheat, 402; spring wheat, 276; all wheat, 678; corn, 3,124; oats, 1,453; barley, 214; rye, 56.1; white potatoes, 452; sweet potatoes, 82.2; tobacco (pounds) 1,215; flax, 17; rice, 34.4; hay (tons) 103; apples, 200; peaches, 45.5.

Wheat remaining on farms July 1 estimated at 15,720,000 bushels.

Condition of crops July 1, follows: Winter wheat, 75.9; spring wheat, 83.6; all wheat, 78.9; corn, 81.1; oats, 89.4; barley, 85.4; rye, 79.4; white potatoes, 90.1; sweet potatoes, 81.9; tobacco, 86.8; flax, 84; rice, 85.1; hay 84.3; apples 64; peaches, 55.2.

Condition of corn and spring wheat by important states:

Corn: Ohio, 85; Indiana, 80; Illinois, 81; Iowa, 86; Missouri, 87; Nebraska, 86; Kansas, 77.

Spring wheat: Minnesota, 87; North Dakota, 73; South Dakota, 89.

EXPECT KAISER TO NAME NEW CHANCELLOR

AMSTERDAM, July 9.—The Tageblatt of Berlin, says it is rumored that a change in the German chancellorship may be expected. Among those mentioned as the possible successor of Chancellor Von Bethmann-Hollweg, it names Prince Von Buelow, former chancellor; Count von Hertling, Bavarian prime minister, and Count von Roeder, secretary of the Imperial Treasury.

Count von Hertling has had several conferences recently with Austrian-Hungarian officials, presumably in regard to peace questions. He is said to favor peace without cash indemnity. During the war Prince von Buelow has spent most of his time in Switzerland. It has been reported that the German government has kept him in a detached position in the expectation of calling him back when the time came to arrange peace.

KATE SANBORN DIES.

Holliston, Mass., July 9.—Miss Katherine Abbot Sanborn (Kate Sanborn) author, who earned her first money by writing while still wearing short frocks, died here today at the age of 79. Miss Sanborn was formerly professor of English literature at Smith College and in recent years had lectured on literary topics.

MOVE TO INVOKE NEW CLOTURE RULE

Chamberlain Acts After New Opposition to Food Control Bill Develops

COMMITTEE WILL MEET

Democratic Leaders Hope To Effect Such Changes As Will Satisfy Opponents

TO AMEND PROVISIONS

WASHINGTON, July 9.—New opposition developing today convinced senate leaders that the administration food control bill cannot be passed in its present form. Democratic leader Martin called a meeting of the Democratic steering committee for tomorrow to discuss material changes.

At the same time, failing to secure unanimous consent to limit future debate Senator Chamberlain, in charge of the measure, filed a motion to invoke the senate's new cloture rule.

May Force Important Revision
Protests against the proposals for government regulation of the iron, steel, cotton and other industries promised to force important revision of the measure.

The cloture motion went over until Wednesday, under the rules. It bears the signatures of twenty-one senators, eighteen of them Democrats. Before it comes up, however, the Democratic leaders hope of effect such changes as will satisfy the bill's opponents. In open debate and many private conferences during the day opposition grew against the measure. Criticism was directed, particularly against Senator Smoot's amendment adopted Saturday providing for government purchase of all distilled spirits in bonded warehouses.

At tomorrow's steering committee meeting plans will be considered to eliminate steel, iron, cotton and some other products from the government control provisions of the bill and to amend the Smoot provisions.

Discuss Prohibition Question

The prohibition question was discussed at length in today's debate with leaders of both sides and drys declaring it unconstitutional in its provision to give distillers a just and fair compensation for liquor to be commandeered. Senator Kenyon who voted for the amendment and has been prominent in the prohibition movement, told the senate the provision was not "worth the paper it is written on." Senator Shields, Reed and others also declared the courts and not congress have power to fix the distillers' compensation.

Senator Nelson, who had previously announced his support for the bill today declared in view of its effect on wheat prices he was in grave doubt as to the advisability of its passage. Senator Wadsworth objected to the proposal to prevent members of voluntary government commissions from selling their own products to the government while Senator Townsend condemned men who "fatten on war contracts."

Senator Penrose denounced the bill as "awkward and absurdly unconstitutional and a disgrace to a crowd of school boys," in some respects.

Deny Agreements

It was to bring the bitter contest to a head that Senator Chamberlain, just before the senate recessed tonight, sought unanimous consent agreements to take a final vote on Friday and also to limit debate to 10 minutes after today. Both were denied on objection by Senator Wadsworth and the Oregon senator then formally presented the cloture motion. It was signed by the following:

Democrats: Chamberlain, Owen, Hollis, Thompson, Robinson, Jones, Kendrick, Huston, Shatrock, Beckham, Gerry, Ashurst, McCreary, Johnson of South Dakota; McKellar, Pomerene, Tillman and Swanson.

Republicans: Kenyon, McLean, and Colt.

The motion, a substitute for one signed last week by forty-two senators, asks that debate be brought to a close by cloture, but does not change a filibuster has been instituted.

Senator Kenyon is announcing that he believed the amendment unconstitutional, suggested that some provision for commandeering distilled spirits should be kept in the bill, so conferees may evolve a combined provision giving legal effect to the Smoot plan.

"The situation illustrates the unwise, riotous session of senators on this liquor question," declared Senator Stone. "It has taken senators over Sunday to discover what they were told during Saturday's debate how imprudently and unwisely we acted."

That great harm has resulted to the wheat market since the food legislation has been under discussion was charged by Senator Nelson.

DENMARK APPLIES FOR CATTLE FEED

Confronts U. S. With Early Decision of Policy

Application Will Go To Exports Council for Consideration—Official of Government Hold Diverging Views On the General Principle Involved.

Washington, July 9.—An immediate decision as to the policy to be pursued towards the European neutral countries in the administration of export control confronted the United States today with the receipt of an application from the Danish government to export ten cargoes of meal cake for use as cattle feed. The application will go to the exports council for consideration. It was one of more than a hundred which came to the department of commerce during the day, asking permission to ship various commodities out of the United States.

Organize Advisory Board

The export council's advisory board created to relieve members of the council, was formally organized today with the following members: Edward N. Hurley, former chairman of the federal trade commission, representing the department of commerce; Vance C. McCormick, representing the state department; Dr. Alonzo E. Taylor, University of Pennsylvania, representing the department of agriculture; B. D. White, representing the food administration, and Dr. E. E. Pratt, chief of the bureau of foreign and domestic commerce, as secretary.

Denmark's application today puts up to this government the determination of just how far it will use the embargo power in preventing supplies from reaching Germany. Although there is no fear that the cattle feed will go thru to Germany, Denmark has been exporting to the central powers large quantities of dairy products.

Hold Diverging Views.

Officials of this government hold diverging views on the general principle involved. Some what to stop shipment of every class of supplies from the neutrals to Germany, while others believe that course would be unjust and desire to prevent shipment to Germany of only those goods which are replaced by American commodities. The British government, meantime, is urging that the United States make an effort to prevent all supplies from reaching Germany. Pointing to reports of large shipments of war supplies, particularly from Sweden, the British insist that this trade should be ended by a refusal on the part of the United States to give the neutrals any class of supplies unless the neutrals give assurances that no goods of any character will go to Germany.

EXPECT SPEEDY END OF TROUBLE IN CHINA

WASHINGTON, July 9.—Final overthrow of the abortive movement in China for restoration of the Manchukuo dynasty is believed here to be only a matter of a few days. Both official and unofficial despatches have led to the conviction that the fighting is practically over and that a solution will be found by compromise since both sides are faced by an extremity neither cares to meet—the monarchists by fear of the death penalty and the republicans by fear of the destruction of Peking.

Latest advices received here report the Republican blocking all four lines of railroad out of Peking and Chang Hsun, the monarchist commander still holding the ancient capital as a pawn for his personal safety. In this situation it is thought both sides are about ready to end the trouble.

TRANSFER MISS LUK TO COUNTY JAIL

WAUKESHA, Wis., July 9.—Almost fully recovered from her self-inflicted wounds, Miss Grace Lusk was transferred tonight from the Waukesha municipal hospital to the Waukesha county jail, to await trial on a charge of murdering Mrs. David Roberts.

After she had been locked up, the school teacher told a deputy that jail authorities need not worry about her trying to commit suicide. She said she had decided to see her case thru and to tell the story of her infatuation for Dr. Roberts, which caused her to kill his wife and attempt her own life. It is expected that she will be arraigned in court in a few days.

AUSTRIAN CABINET DECIDES TO RESIGN

AMSTERDAM, July 9.—The Austrian cabinet, the Lokal Anzeiger of Berlin says it learns has decided to resign. A new ministry it adds already is in course of formation.

The present Austrian cabinet, under the premiership of Dr. Vonskydler has been in office only two weeks having been formed June 24. It succeeded the cabinet of Count Olan-Martine which had a stormy career of six months.

GIVE REVISED LIST OF AIR RAID CASUALTIES.

London, July 9.—A revised list of casualties in Saturday's air raid shows 29 men, 4 women and 5 children killed; 98 men, 44 women and 32 children injured in the metropolitan area. In Thanet Island one man was killed and two women and one child injured.

U. S. ARMY AIR FLEET MAKES 100 MILE FLIGHT

RANTOUL, Ill., July 9.—Twenty two army airplanes landed safely here today after flying from their base at Ashburn Field near Chicago in the longest squadron flight ever made by a United States army air fleet. Twenty three airplanes started but one aviator became lost in a fog and was forced to land at St. Joseph, Mich. The first plane, with Al Johnson as pilot, made the distance, 100 miles, in one hour and twenty five minutes. Forty eight machines are expected here soon. It is believed seventy machines will be in operation on the field here by the last of the week.

SCOTT SAYS RUSSIAN ARMY WILL FIGHT

American General in Petrograd After Tour of Front

Asserts Advance So Brilliantly Begun Has Every Chance for Successful Termination—Describes in Detail Russ Advance of June 30

Petrograd, July 8.—Delayed—The Russian army is going to fight. The spirit among the troops everywhere is excellent. The advance so brilliantly begun has every chance for successful continuation.

This was the reassuring comment on the Russian military situation made by Major General Hugh L. Scott, chief of the general staff of the United States army on his return tonight from a ten day's tour along the southwestern front into Koomania. General Scott described in detail and with the greatest enthusiasm the Russian advance of June 30, which he personally observed at close range from a point near Berezany.

"We journeyed from Tarnopol to the firing line," General Scott said. "A tremendous bombardment was in progress. The point that struck me most forcibly was the accuracy of the Russian fire and the effective concealment of their batteries. The Russian artillery was good but noticeably weaker. The precision of the Russian machinery was a marvel to me. The spirit of the men themselves was in favor of an advance. The artillery preparations ceased suddenly, the order of advance was given and the whole Russian line swept forward in perfect unison. I was somewhat dismayed when in a short time I saw thousands of men pouring back again. But I soon discovered that these men were Austrian prisoners who came running within arms reach of the Russian lines."

Apparently with a single thought—that of surrendering as quickly as possible," General Scott said. "The spirit and discipline of the Russian troops during this engagement was merely a sample of that which he found at other points on the front."

CHICAGO REGISTRATION RECORDS SHORT 50 CARDS

CHICAGO, July 9.—Records of draft registration in Chicago supplied to the adjutant general by exemption boards are short at least 50 cards according to official announcement here today. It was intimated that the cards were missing perhaps as a result of a scheme to evade operation of the military service law.

Adjutant General Frank S. Dickson had demanded of the corporation counsel's office that investigation be made to determine how the cards were lost.

It is believed that the total of fifty will be increased when all of the exemption boards have reported. Apparently there was no connection between the loss of the cards as they were from scattered sections of the city. Unless the cards are found before the day on which drawings of men for the army are made it may be necessary for secret service men to make a house to house canvass of the precincts from which cards are missing in order to ascertain the identity of the persons holding the duplicate cards.

Only 34 of the 86 exemption boards of Chicago had reported tonight.

PLAN CO-ORDINATION OF RELIEF FUNDS

SPRINGFIELD, Ill., July 9.—Plans for the co-ordination of the relief funds raised for tornado sufferers at Mattoon and Charleston and at other Illinois points and the \$275,000 appropriated by the general assembly were made here today at a conference attended by Adjutant General Dickson, T. J. Edmonds and John J. O'Connor of the Red Cross. Judge P. A. Neal of Chicago and Judge F. K. Dunn and T. J. Williams representing the relief committees of Charleston and Mattoon.

Relief funds in addition to the sum appropriated by the state was said to have reached \$285,000. Adjutant General Dickson, it was arranged, is to administer the entire amount. In order to learn what specific needs exist he will send investigators into the stricken fields who will report to him.

INVITES JONES TO MOVE TO ST. JOSEPH

St. Joseph, Mo., July 9.—Declaring they would no longer support baseball provided them by Jack Holland owner of the Western League baseball club here, a mass meeting of enthusiasts tonight adopted a resolution extending an invitation to Hugh Jones, owner of the Denver League team to move his franchise and club to St. Joseph. The offer of Jones contained a guarantee of any reasonable amount from the sale of tickets.

EJECT NEWSPAPER MEN FROM INQUEST

Inquiry Into East St. Louis Deaths Conducted in Secret

TALK WAY PAST GUARD

Committee Discusses Alleged Grafting Among City Officials and Police Department

BRUNDAGE TO VISIT SCENE

EAST ST. LOUIS, Ill., July 9.—Three newspapermen were ejected from the coroner's inquiry here today into the death of whites and blacks in the race rioting last Monday. Officials had intimated that the session would be open but when it convened the doors were barred insofar as the public was concerned.

The three reporters talked their way past the guard at the door. Coroner Renner started questioning the three about the riot, after sending patrolmen to State's Attorney Schaumleffel to get his opinion concerning the reporters' right to be present. Schaumleffel recommended that the reporters be ejected and they were.

Discuss Alleged Grafting.

Prior to the inquest a meeting of a committee of one hundred appointed by the chamber of commerce discussed the alleged grafting among city officials and the police department. Charges were made that gamblers and immoral women have paid certain officials a fixed sum monthly for protection and that the office furniture of several justices of the peace has been "donated" by certain keepers of disorderly houses.

The president of a bank said that lawlessness had existed for twelve years and that politicians had let the city "go to hell" as far as morals were concerned.

Virtually all the speakers recommended that the present police department be re-organized from top to bottom and intimated that a change in the city administration would be acceptable.

Brundage May Take Charge.

Springfield, Ill., July 9.—Attorney General Edward J. Brundage probably will take personal charge of the criminal investigation in St. Clair county growing out of the race riot at East St. Louis. It was stated here late today after a delegation from the East St. Louis chamber of commerce headed by Attorney Edward C. Kramer, came to Springfield to request the intervention of the state.

Attorney General Brundage who will return from Michigan tonight plans to visit the scene of the rioting tomorrow in company with James J. Wilkerson, his first assistant. They will then determine what steps are necessary to bring about the conviction of the men who engaged in the killing of negroes and the burning of their houses last week.

Mr. Wilkerson who has been in personal charge of the attorney general's office in the absence of Mr. Brundage is of the belief that the rioting was sporadic and was not the

EQUAL CHANCES.

After all, we all face about the same conditions. Henry Field, worth \$300,000,000, is dead in New York City after an operation. Marshall Field, another member of the wealthy Field family, recently enlisted in the U. S. army as a private. There is a lot of truth in the old saying that all we get out of this life is board and clothes, and that the man who is well clothed and fed during all his years has really made something of a success at living.

CONSISTENT "BILLY" MASON.

At a pacifist meeting in Chicago recently the papers say there was as much noise as Congressman "Billy" Mason's voice and 150 pairs of hands could make. When it comes to noise the Illinois congressman is always ready to "deliver the goods." Those who remember his course at the time of the war with Spain are not at all surprised at his present attitude.

At the earlier time Mason was serving as senator and failed to uphold the hands of President McKinley when war was declared following the sinking of the Maine. The conduct and attitude of the senator at that time had much to do with his being relegated to private life for an extended period. Consistency is sometimes not a jewel and this applies in the case of Mr. Mason, who would make a much larger place for himself in the estimation of the country if he would keep himself busy in support of the government in this time of great need instead of lending whatever influence he may have to aiding in embarrassing the government.

THE EMBARGO PURPOSE.

The president has put into effect the embargo which the act of congress, passed June 15, authorized. This embargo does not arbitrarily stop the shipment of the commodities listed, but before shipment can be made the shipper must secure a license and satisfactory proof must be presented to show that there is no danger of the articles intended for shipment eventually falling into the hands of Germany. The embargo is intended, therefore, not only to benefit the U. S. and her allies, but to cut off benefits from Germany.

The situation which has existed thru Germany's successful efforts in securing supplies that were shipped from the U. S. to neutral nations

was well set out the other day in a cartoon by Orr, the capable Tribune cartoonist who each day presents "The Tiny Tribune." In this cartoon a huge well-fed cow, termed "neutral" was shown contentedly eating foodstuffs shipped from the U. S. and at her side was a bulky German seated on a stool and engaged industriously in milking. That is the situation that the president is aiming at in the embargo order.

WILL TEST

WOMEN'S PATRIOTISM.

The patriotism of Chicago women is to be put to the supreme test. The retailers' association in order to help cut down the cost of doing business, will offer a special discount to those customers who carry their packages home with them and thus eliminate the necessity of delivery. But that is not the real test. The women are going to be asked not to return packages. Records of the big stores show that 35 out of every 100 packages delivered are returned from one cause or another. So the shopper who still insists on delivery is asked for patriotic reasons to make up her mind definitely what is wanted before she makes a purchase. This will end also the "goods on approval" method.

This delivery and return system is only one of the items in modern business methods which have increased the cost of operation. Years ago the housewife came to market each morning and carried home purchases in a basket. That was before the days of the telephone. And it would be easy enough to sit down and figure out many ways of saving if we were all only satisfied to go back twenty or thirty years and practice the same economy and the same frugal methods which obtained in the homes of our youth.

MR. PEABODY

FOR SENATOR.

Democrats of Illinois have with good reason taken "Support President Wilson's war policy" as their slogan in the next senatorial campaign. The reason they have found in the fact that so many Democrats have failed at the crucial time and have not given the president that support which not merely party loyalty but patriotism would dictate. Anyone who follows proceedings at Washington knows that the president on much of the most important legislation before congress has had to rely upon Republican support.

So the Democrats in this state are taking up the slogan and the Sullivan faction is said to be lining up to support Francis S. Peabody, who is a member of the state council of defense, and incidentally chairman of the sub-committee on coal supply. Mr. Peabody is a business man of very large experience. The 400 coal men who attended the hearing at Washington recently referred to him as wonderful. The fact is that Mr. Peabody handled a very difficult situation at Washington deftly. He is very closely allied with utility interests in Illinois, represents a syndicate which owns a large number of mines, and in addition was conducting the hearing referred to as a representative of a committee to help the country in coal production during war times.

Mr. Peabody, the coal men say, managed matters splendidly. He undoubtedly is a big brainy business man, and that he supported President Wilson is attested by the fact that he gave \$5,000 toward the president's campaign expenses.

ROSENWALD ATTACKS

RED TAPE.

Julius Rosenwald of Chicago, member of the national council of defense, has made himself famous not only by his wise business activity but by the statement that "these times are too dangerous to be polite." Mr. Rosenwald no doubt meant that this is not the time for men to be sensitive or to take offense quickly or to feel that they have been snubbed if their own particular ideas are overridden by others. Mr. Rosenwald followed up this statement by some outspoken language on his own account, in which he has justly criticised congress for its attitude of jealousy assumed toward some of the big business men who are serving at great personal sacrifice in the national council of defense.

He has also attacked the red tape system which makes for inefficiency in so many governmental departments. Red tape lies at the bottom of many of the government's troubles and any man who carries on ordinary business transactions with the government knows that the government does not observe the ordinary rules of business courtesy or efficiency. These red tape methods may be necessary in times of peace but in war days they mean inevitable loss of valuable time.

Rippling Rhymes

Men Must Pay

In this old world much is uncertain; tomorrow is behind a curtain that hides it from today; one thing is sure, for all wayfarers; for all our follies and our errors, we'll sometime have to pay. We trot along a course unholy; the day of wrath approaches slowly, and seems long verities away; but Nemesis is cutting clover, preparing now to put over, and shortly we must pay. In trifling matters and in greater, the truth holds good, and soon or later, when the young or when we're gray, the captain's office we shall enter, approach the wicket in the center, and shed some brine and pay. I see the little lads waste their money in courses dissolute or funny, as thoughtless as they're gay; and later on they will be yearning for dollar bills they now are burning, for spendthrifts all must pay. I see good fellows soak their shanties, and borrow money from their aunts, that they may ride today, in gorgeous cars with seats of leather, and fenders neatly put together, and some day they must pay. I see so many idly taking the road that goes, where hearts are breaking, where all the Jonahs stay! Alas, alas, they are not heeding the lessons I am daily reading, which is that men must pay!

The superintendent of pardons and paroles is Will Golvin. In pardon hearings Mr. Golvin is assisted by Herman Adler, M. D. Criminologist; John L. Whitman, superintendent of prisons, and J. E. McClure, assistant director. Parole hearings are conducted by the criminologist, superintendent of prisons and parole officers, together with the superintendent, if desired.

Recommendations for pardon will be made by the director, Mr. Thorne. Recommendations for parole will be made by Mr. McClure, the assistant director.

The alienist for the department is H. Douglas Singer, M. D.

NOTIFY REGISTRANTS
TO PREPARE FOR CALL

WASHINGTON, July 9.—Registrants subject to draft for the new national army were today notified to hold themselves in readiness to appear before the boards which will conduct examinations and consider exemption claims. Detailed instructions regarding the course to be pursued are contained in circular sent by direction of Provost Marshal General Crowder.

Details of the means to be employed in making selections were withheld today pending the completion by delinquent states of the organization of all local and district exemption boards.

AMERICANS PREPARE
TO START FOR CAMP

A FRENCH SEAPORT, July 8.—This city was astir today at the prospect of the impending departure of the American contingent for its permanent training camp. Major General William M. Sibert has completed all arrangements for moving the men. The general himself will leave by automobile and will take up quarters already prepared in a village "somewhere in France" which will be within hearing of the German guns, if not within direct range. The troops were enthusiastic today at the prospect of an early departure. The town took a vacation to visit the camp. The residents had heard only the vaguest rumors about the troops leaving but did not venture to lose the opportunity to see the Americans. The camp adjoining the seaport were filled with civilians who eagerly watched their preparations to leave.

GENERAL CHANG HSUN
GIVES UP CHINA'S CAPITAL

LONDON, July 9.—General Chang Hsun, leader of the attempt to place the Manchus again on the throne of China, has resigned all his offices and handed over the administration of affairs in Peking to General Wang, who is a friend of Tien Chi-jui, leader of the Republican forces.

Special dispatches from Peking and Tien Tsin add that fighting between the Republicans and Imperialists has ceased and that the Republicans surround Peking.

The railway station in Peking is held by the Republicans and trains now are running between Tien Tsin and the Chinese capital.

DIVIDES MILLION

AMONG EMPLOYEES
Boston, Mass., July 9.—One million dollars is to be divided between 400 of the old employees of the late John B. Pierce of Peabody, a manufacturer who died on June 23. This provision of his will, filed today, also gives them 60 per cent of the income or \$2,500,000 as a recognition of their faithful services.

C. D. PFAFFLAN DIES

Denver, Colo., July 9.—Charles D. Pfafflan, national inspector general of the uniform rank of Knights of Pythias, died here today after an operation for appendicitis. He was a veteran of the Franco-Prussian war and was 66 years old.

AWARD BOY \$30,000

Chicago, July 9.—John Curran, 17 years old, was awarded \$30,000 today as a result of his case against the Chicago & Western Indiana and the Pittsburgh, Fort Wayne & Chicago railroads for the loss of his right arm in a railroad accident. He had previously lost his left arm in a street car accident.

LOCAL BOARD RECEIVES
EXEMPTION RULES

Married Men Who Have Persons Dependent Upon Them Will Be Discharged—Cards Must Be Filed in Proper Form

The rules and regulations prescribed by President Wilson for local and district boards were received yesterday by Miller Weir, president of the local board of Morgan county. The rules as applied to exemptions are of particular interest at this time. They are in general as indicated in the unofficial forecasts. Persons exempt from military service are classified as follows:

Officers of the U. S. and the several states; ministers of religion; students of divinity; persons in military or naval service of the U. S.; subjects of Germany residing in the U. S.; other resident aliens who have not taken out their first papers. Claims for exemption must be filed with local boards on or before the 14th day after notices have been mailed by the local board informing persons that they have been called for service.

Subject to Discharge

The following persons or classes are to be discharged by local boards, after claims for discharge have been properly filed and the necessary evidence produced. These claims for discharge must be filed within seven days after the notice of draft has been mailed. The statement on a registration card that discharge is claimed shall not be construed as a presentation of a claim for discharge. The persons or classes referred as follows:

County and municipal officers, custom house clerks, persons employed by the U. S. in the transmission of mails;

Artificers and workmen in armories, arsenals and navy yards.

Persons in the service of the U. S. designated by the president to be exempted.

Pilots.

Mariners in the sea service.

A married man whose wife or child is dependent upon his labor for support.

Any son or aged or infirm parent or parent's dependent upon his labor for support.

Brother of a child or children under 16 years of age who has neither father nor mother, and are dependent on his labor for support.

Persons members of recognized sects forbidding its members to participate in war.

Those found to be morally deficient.

PORTLAND WELCOMES
SCHOOL TEACHERS

PORTLAND, Ore., July 9.—Portland today extended formal welcome to the hundreds of school teachers who have come from all sections of the United States to attend the wartime convention of the National Education association in session here. War topics are being discussed by practically all the speakers. Further conservation and control of food was urged in an address by Charles Vanne, president of the University of Wisconsin who has come to the convention as a representative of Herbert Hoover, national food administrator.

CARRANZA WANTS TO
NEGOTIATE LOAN

Mexico City, July 9.—President Carranza sent to congress tonight a message asking for special authorization to negotiate a loan of fifty million pesos, to be used to rehabilitate the railroads and various other roads. This is the third special permission asked within a few days, the first being for a loan of 100,000,000 pesos for the purpose of starting a government bank and of 150,000,000 for the expenses of the government.

DECIDE TO CALL STRIKE

Leadville, Colo., July 9.—Decision to call a strike next Saturday of the metal miners employed in the Leadville district was reported tonight by the local executive board of the International Union of Mine, Mill and Smelter workers.

The miners demand of dollar a day increase in wages. Their present pay is \$3.50 a day. The operators have declined to treat with the union committee.

LONDON, July 8.—According to reports reaching Amsterdam from Berlin, Emperor William invited neutral ministers to a conference on Saturday.

THREE BURN TO DEATH

Cincinnati, O., July 9.—Three persons were burned to death and four other seriously injured by fire in the plant of the Interstate sanitation company late today. The fire was caused by the explosion of a 250 pound tank of chemicals, the shock partially wrecking the building trapping employees and several families living in the upper stories of the structure.

GIVES PROPERTY TO
RED CROSS AND ENLISTS

San Francisco, July 9.—John Lampas, a young Greek, today gave the Red Cross his touring car, his gold watch, his bank deposit of \$531 and \$25 in cash. Having this, he said, disposed of all his worldly possessions he enlisted in the army. "That's all I have," he said, "and I am glad to give it."

LITTLE GIRL BADLY BURNED

Martha, three year old daughter of Mr. and Mrs. Louis Gause of South East street, was severely burned Sunday evening about 7:30 o'clock as the result of playing with matches. The mother extinguished the flames with her dress and the child was taken to Our Savior's hospital where Dr. F. A. Norris attended her.

CAUTIONS SENDERS OF
LETTERS TO TROOPS

WASHINGTON, July 9.—Persons sending letters or cablegrams to American soldiers in France are cautioned in a war department announcement tonight to include in the address only the name of soldiers, his company regiment or other unit, and the words "American expeditionary force." The location of the unit should not be mentioned, even if it be known.

The envelope should also bear the name and address of the sender. Mail addressed in care of the adjutant general of the army, Washington, will be forwarded only when the writer does not know that the addressee has actually embarked.

Similar rules prevail for communications for members of the expeditionary force to friends or relatives in the United States. Troop locations or movements must not be mentioned.

Money may be transmitted thru postal orders, but arrangements have not yet been completed for parcel post service to the expeditionary force. Private cablegrams to the soldiers should be addressed Amexforce, London, with the addressee's name and unit appearing as the first words of the text. To comply with European censorship regulations, all messages must be written in English or French.

STOCKS OF MEAT
SHOW INCREASES

WASHINGTON, July 9.—Stocks of meat in storage July 1 showed material increases over stocks one year ago amounting to about sixty per cent in frozen and cured beef, the bureau of markets reported today. Lard supplies are nearly one half less than last year. Owing to abnormally low stocks of poultry in storage July 1, 1916, the amount held now is almost five times greater. Twice this many frozen eggs and 28 per cent more cheeses is in storage now than a year ago. But stocks are 17 per cent lower. Stocks of meats increased slightly during June.

NEED MORE THAN 43,000 MEN.

Washington, July 9.—More than 43,000 men are yet needed to complete the total quota of all states in the regular army. Today's statement from the adjutant general's office showed 1,183 recruits for Saturday and Sunday. The list of states with completed quotas was not increased and the total number of men enlisted since April 1 was shown at 149,598.

REPORT BANDIT'S DEATH

Washington, July 9.—Rear Admiral Knapp reported from Santo Domingo City today that Vincentio Evangelista, a bandit leader, who murdered two American engineers recently and subsequently surrendered with 225 members of his band, was shot and killed by a sentry when he tried to escape from prison at Macoris, July 6.

ELKS OPEN MEET TODAY

Boston, July 9.—Thirteen hundred delegates are already here for the annual meeting of the Benevolent and Protective Order of Elks which will open tomorrow. A special committee appointed to plan a method of war relief work to be pursued by the order will make a report. It is expected to recommend an appropriation of \$1,000,000 for the work.

ORDERS EIGHT HOUR DAY

Washington, July 9.—An eight hour day and a six day week were ordered into effect at the government bureau of engraving and printing today by Secretary McAdoo after receipt of a report from a special treasury department investigating committee. Employees had claimed that they were compelled to work in some cases as much as 12 hours a day including Sundays. The investigating committee reported that the conditions were due to the unprecedented amount of work in getting out liberty bond certificates.

GERARD RETURNS TO
PRIVATE LIFE

Washington, July 9.—James W. Gerard, former ambassador to Germany, has resigned from the diplomatic service and returned to private life. His resignation was accepted some time ago though the fact was not allowed to become known until today.

DISMISS POSTAL EMPLOYEE.

Washington, July 9.—Because he sang a parody extolling the kaiser, at a postoffice clerk's excursion two weeks ago, Fred M. Bock, an employee of the city postoffice for twenty-six years, was dismissed today by orders of the first assistant postmaster general.

WERE PLEASED WITH
ENTERTAINMENT.

The delegates to the Wood River Baptist Sunday School convention, which was held here last week were well pleased with their entertainment. All of the delegates were housed in good homes and furnished with good meals. These furnished entirely thru the membership of Mt. Emory Baptist church who paid all bills. Members of other churches assisted in the furnishing of rooms. The delegates on the closing day of the convention adopted resolutions expressing appreciation of the excellent treatment received and also expressed thanks to the press for the manner in which the convention was handled. Much of the success in taking care of the delegates was due to Mrs. Trionah Duncan who was chairman of the Ways and Means committee and Mrs. Walter Blue who had charge of the kitchen. Mrs. Bessie Duncan and Misses Katherine Hayden and Gladys Matlery were in charge of the registration and did excellent work.

WAR NEWS SUMMARIZED

Halicz, the key to Lemberg, capital of Galicia, is threatened seriously by the success of the second thrust within ten days in Eastern Galicia by the Russian armies. Changing suddenly their point of attack to west and north of Stanislaw about 18 miles south of Halicz on the Lemberg-Czernowitz railway the Russians have taken Jezupol, eight miles south of Halicz on the River Dniester, and four villages between the railway line and the Lomnica river, ten miles to the west. Clezov, one of the villages taken is several miles southwest of Jezupol and on the Lemberg-Stanislaw railway.

Important captures of prisoners and guns were made by General Drussiloff's men. More than 7,000 men, 131 officers, 48 guns and many machine guns were taken from the Austro-Germans. The Russian attacks northwest of Stanislaw continue.

The Russian cavalry has swept on to the west and has reached the Luvka river. Berlin and Vienna admit the success of the Russian thrust but both capitals claim that the advance was checked by German reserves, thrown in apparently to save the Austrian positions.

A further advance of the Russians toward the Siwaka river thirty miles west of Halicz would make most perilous the retention by the Austro-Germans of their present line from Zlochoff to Halicz, and would compel at least, the evacuation of Halicz. That their flanking movement may have added security the Russians have been attacking the Austrians along the Bystritz-Zlotivina south-east of Stanislaw, but with no important gain of ground as yet.

Again the French have thrown back German efforts to reach the line of the Chemin-des-Dames. The German crown prince has been reckless in his expenditure of men but all to no avail as the French still hold tight to the important positions south of Laon.

Along the British front in France on the Austrian-Italian front and in Macedonia there has been little infantry activity, only raids and reconnoitering engagements being reported.

ed. Along the Mesopotamian-Persian frontier the Russian troops have evacuated several towns in the mountains including Khanakin on the Diale river west of Kermanshah.

TAKES UP TRADING WITH ENEMY BILL

House Makes Such Progress That Passage is Expected Not Later Than Thursday.

Washington, July 9.—The administration bill to prohibit trading with Germany or her allies during the war was taken up today by the house and such progress made that passage is expected not later than Thursday. General debate was concluded without developing indications of a prolonged fight when the measure is taken up later for consideration of amendments. Representative Lenroot of Wisconsin led the opposition to the bill maintaining that some of the provisions to prohibit neutrals from trading with the enemy or enemy allies while doing business in this country were in direct violation of international law. He declared that had Germany attempted such a step when this country was neutral, serious objection would have been made here.

Representative Montague of Virginia in charge of the measure indicated that he would accept amendments agreeable to Mr. Lenroot. The section which would permit the taking of German patents in this country for use during the war was criticized by Representative LaGuardia of New York. He insisted that Salvansan, a German patent specific, cannot be compounded successfully by American chemists and cautioned the house that cancelling of German patents might result in seizure of American property in Germany.

A committee amendment making it unlawful to transmit any letter, message, picture, diagram or map to the enemy was explained by Representative Esch of Wisconsin as a precaution against the versatility of the German spy system.

SIX KNOWN TO BE DEAD IN EXPLOSION

Blast Wrecks Two Store Houses At Mare Island Navy Yard—Thirty-one Injured.

Vallejo, Cal., July 9.—Six persons are known to have been killed in an explosion which wrecked two storehouses at the Mare Island Navy Yard today and at least thirty-one persons were injured. Fire which started from the explosion and for a time threatened to spread to the magazine proper was extinguished.

Investigation was begun tonight to determine the cause of the explosion, which took place in one of the black powder magazines. It is believed the blast was the result of an organized conspiracy.

To dead are Allen F. Mackenzie, chief gunner; his wife and two daughters, Dorothy, aged 12 and Mildred, eight; George Stanton, a gardener employed by Mackenzie and N. C. Dumstedt a civilian employee in the ordnance department.

The list of wounded included non-commissioned officers, enlisted men of the United States navy and civilian laborers. The explosion wrecked nearly a dozen packing and shell houses in the vicinity of the magazines and broke thousands of dollars' worth of glass in Vallejo stores and residences.

INVESTIGATE ATTEMPT TO LIBERATE SAILORS.

Atlanta, Ga., July 9.—An investigation was being made tonight by military authorities at Fort McPherson in an effort to place responsibility for what appears to have been an attempt to liberate 400 German sailors interned here. Officers admitted they had discovered that the wire barricade which extends around the quarters occupied by the prisoners had been cut on Sunday night. In one place a hole large enough to allow the passage of a man's body was found. The sentinel who was on duty near the prisoners' quarters is under a railroad.

EARTHSHOCK AWAKENS POPE

Rome, July 9.—Pope Benedict was awakened by an earthquake which shook the whole of Rome early Saturday morning. Many people dressed, others left their homes fearing a second shock. The pope inquired as to the extent of the earthquake and learned there was no damage nor victims.

GIVES SHOPMEN INCREASE.

Aurora, Ill., July 9.—The Burlington railroad today announced a ten percent increase in wages of shopmen employed upon piece work. Skilled labor working by the day in locomotive shops is given a raise of four cents an hour. Five weeks ago all men working by the day were given a raise of 10 per cent.

SWEDISH OFFICER MURDERED

Stockholm, July 8.—The newspaper Dagen's Nyheter, says that Colonel Hjalmar Smitt, a prominent member of the Swedish general staff was found murdered in his flat Saturday. The circumstances suggest an attempt by the murderer to get possession of important military plans in Colonel Smitt's keeping.

SIGHT SCHOOLS OF SHARKS.

New York, July 9.—Several schools of sharks, some of them of large size, have been sighted between the Delaware and Hatteras Capes, according to word received today by the local weather bureau from a Marine correspondent. The sharks appeared to be travelling northward.

ANNOUNCE SAFE ARRIVAL.

Baltimore, Md., July 9.—Cablegrams were received today by the families of the ranking officers of the Johns Hopkins base hospital unit announcing their safe arrival abroad. The unit left this country several weeks ago for France.

THREATEN GENERAL STRIKE

Chicago, July 9.—Threat of a general strike of 50,000 agricultural workers in the wheat fields of the northwest was made here today by Frank H. Little, member of the general executive board of the Industrial Workers of the World. He declared that walkout of the harvesters was certain if the demands of striking miners in Arizona and Montana were not granted. Little had charge of organizing the miners who recently quit work in those states.

PLEDGE SUPPORT TO WILSON

**RED CROSS STUDY
COURSES ARE PLANNED**

Home Dietetics Course Will Be Directed by Miss Edith Sawyer—Course is Outlined—Notes from Red Cross Shop.

The bureau of nursing service of the Red Cross society outlines three courses. The first is "elementary hygiene and home care of the sick," the second "home dietetics" and the third "preparation of surgical dressings." Some weeks ago fourteen college girls took the first course and preparations are now under way for the beginning of a course in home dietetics. The object of this course is to teach women the proper selection of nutritive value of food and the importance of a well balanced diet to adult and child, the sick and well, in order that they may not only understand the underlying principles but apply such knowledge to the practical performance of buying, cooking and serving in their own homes.

Under the direction of the Red Cross society here it has been arranged for Miss Edith Sawyer, who is an enrolled Red Cross dietitian, to instruct such a class. Not less than ten and not more than twenty can be enrolled and the course will cover fifteen lessons of not less than two hours each. The lesson themes include such subjects as Hygiene of food, nutrients, meat and fish, milk and eggs, cereals, meat substitutes, vegetables and fruits, digestion, food value and dietary standards, bill of fare making, serving meals for families, food for infants and young children, food for school, and food for the sick.

The fee for those who enroll in this course will be \$5.50, which will include the amount paid to the instructor, the expense for food used in demonstrations, and for the text books. Any persons interested in this work—and no doubt there will be many—are asked to call at once at the Red Cross shop. If further information is desired it can be secured there. It is a requirement of the national Red Cross society that instruction in this course cannot be started until the instructor is officially appointed and class rolls and registration fees are submitted to the bureau of nursing service. It was announced recently by Miss Capps at the Red Cross shop that a first aid course will be given as soon as a class can be organized. The instructor in this course must be a physician.

Notes.

There are a number of Red Cross members in Morgan county but thus far H. G. Keplinger of Franklin is the only patron member. A patron member must pay \$100 into the Red Cross treasury.

Enough additional membership cards were received Monday to bring the actual registration up to 7,400.

AN AMBITIOUS WORKER

Edmund Blackburn of the Ebenzer neighborhood, who is now past eighty three years of age, is temporarily ill. Mr. Blackburn's condition is due to the fact that he misjudged his strength. A few days since he noticed that the roadway near his residence had been badly washed out and he determined that with his team and plow he would remedy the difficulty. So he plowed a number of rounds on the steep hillside and when he had the task completed found that he was helplessly exhausted. It was a fine example of energy and ambition in a man so old, but the result to Mr. Blackburn was not satisfactory, as he has been confined to his bed for a number of days.

JUSTICE COURTS

In Squire J. M. Coons' court Monday Sam Ferrero was arraigned on a charge of assault with intent to kill. He waived preliminary examination and was bound over to the grand jury in the sum of \$100. Ferrero was released in Squire Dyer's court Saturday but, as previously mentioned, another warrant was sworn out by State's Attorney Robinson.

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for sworn testimonials. Dr. E. W. Hall, 2926 Olive St., St. Louis, Mo. Sold by druggists.—Adv.

**C. S. HILLERBY TO
CLOSE HIS STORE**

Well Known Merchant Will Retire From Dry Goods Business—Sale Will Begin Thursday.

It was announced Monday by Carl S. Hillerby that he will soon retire from the dry goods business to engage in another line of business in Jacksonville. Accordingly a quit business sale to be inaugurated Thursday of this week and the entire stock of the store will be sold out. The store will be closed all day Wednesday while the work of marking the goods at the special sale prices is in progress. Nearly all the goods in the store were purchased before the present market advances and so unusual buying opportunities await the public. Cotton and woolen goods, silks, satins and everything carried in the extensive stock will be sold. The store fixtures are for sale and this is an absolutely bona fide closing out sale. The goods will all be marked in plain figures. None can be taken out on approval.

Mr. Hillerby has been identified with the business life of Jacksonville for many years and is held in high esteem by business associates and the public generally. It will be a matter of satisfaction to these many friends to know that his change to another line of business does not mean that he is to leave Jacksonville.

WINCHESTER

Misses Mary and Barbara Owings left Monday for a visit in Macomb and Canton.

Members of the Christian church have decided upon Thursday, July 9, as the date for their annual bazaar, an event which is always anticipated with much interest.

Corwin Mason arrived Sunday afternoon from Canton to make a visit with his parents, Mr. and Mrs. Robert Mason.

Miss Tessie Hepworth of Aley was a visitor here Monday.

George Stewart and Robert Mason were Manchester visitors Monday.

W. B. Clark was kept from his place of business Monday by illness.

Miss Gertrude Benson and sister came from Jacksonville Sunday for a Winchester visit.

J. O. Priest and family and Mrs. Priest's mother, Mrs. Hurd, came from Jacksonville Sunday and visited relatives. They made the trip in their Ford sedan.

Mrs. Effie McKean of Springfield spent Sunday at the home of her parents, Mr. and Mrs. Peter Obermeyer.

BIRTH RECORD

Born, Sunday to Mr. and Mrs. James A. Powers, at Our Savior's hospital, a son, James Carl Powers, weight eight and one-half pounds.

Born, to Mr. and Mrs. Thomas Casey, residing southwest of the city Sunday, at the home of Mrs. Casey's mother, Mrs. Alice Whalen, 407 South Clay avenue, an eight pound daughter, Mary Alice. Both mother and child are doing well.

YOUNGBLOOD PRAIRIE

MERRITT RED CROSS

At church services in Merritt Sunday evening Norman Campbell made a report on the Red Cross work in that precinct. The church precinct had been enroute to the Red Cross meeting and south Mr. Campbell said he found the work very pleasant. He reported 80 members and \$140 in the treasury. Part of this fund was contributed by the Merritt band. The band played in Winchester recently on the occasion of a Red Cross meeting and a contribution was taken up for the members. After deducting \$4 for expense the members donated \$20 to the Red Cross fund.

INJURED HAND

James Lyons, C. & A. sectionman, had his hand badly injured Monday when a fellow worker accidentally struck him with a pick. Lyons who lives at 1206 Center street, was taken to the office of Dr. Black where he received the necessary medical attention.

**CHARLES RYAN NOT HURT
BY OVERTURNING FORD**

Luck was with Charles Ryan Sunday evening when a serious auto accident near the Yeomans bridge left him uninjured. He was driving the Ford car of William Ryan and was nearing the railroad bridge on his way from Franklin when the car gave a lunge and turned a complete somersault. Mr. Ryan, the auto's only occupant, was thrown clear and arose unharmed. The car was considerably damaged. Mr. Ryan was unable to explain the cause of the accident which came to him so quickly and might have resulted so much more seriously.

REFURNISHED KITCHEN.

The Dorcas Sewing circle of Mt. Emory Baptist church of which Mrs. Alice Scott is president has refurbished the kitchen of the church complete thruout. The room was remodelled, new ranges and stoves put in and a dining table purchased.

Miss May M. Myers of Greenwood Avenue has been visiting friends in Springfield the past few days.

**TAX PAYMENTS TO BE
MADE SEMI-ANNUALLY**

Bill Passed by General Assembly Makes Taxes Due in February and September.

Among the laws passed by the last general assembly was one providing for the payment of taxes twice a year. This bill was referred to before the general assembly adjourned, but at that time final action had not been taken upon it. According to the provisions of this bill, personal taxes are due in February and one-half of the taxes on real estate, the first of April such taxes become delinquent and draw interest at the rate of 1 per cent per month until paid. The second half of real estate taxes is due in September and becomes delinquent the first of November, drawing interest at the rate of 1 per cent per month until paid. It is the claim of advocates of the bill that this change will make the payment of taxes easier for persons of small means in that the taxes can be paid in two installments. In some states where the twice a year tax payment plan prevails a bonus is given for the payment of all the real estate taxes at the time when the first half is due.

In the Illinois law, however, no such provision is made. It is also claimed that as a result of the new law that tax collectors will not be able to accumulate such large sums of state taxes before turning them over to the state treasurer. Just how this will work out remains to be seen, for in the past the treasurer of Cook county has not complied with the law and has not turned over the funds on hand at the time the law has specified. It has been the claim of Cook county officials that there it was not possible to comply with the statute, which was drawn many years earlier, before the population of Cook county reached such large figures, and before the government machinery of Chicago and Cook county had become so complex.

Social Events**Birthday Party for
Mrs. Blakeman.**

A birthday party was given for Mrs. N. A. Blakeman of Murrayville July 8, by her daughter, Miss Ada Blakeman. For the past three years Mrs. Blakeman, who is now eighty two years of age, has been in poor health and she has been tenderly cared for by her daughter. All the children, grandchildren and great grandchildren were present except Leonard Rimby of Hopedale, Kans., and Edward Blakeman of Chicago. The daughter, Miss Ada Blakeman, served a sumptuous dinner on the lawn under the beautiful maple trees. After the dinner a group picture was taken by Miss Dorothy Blakeman. There were four generations present and the occasion proved one of great pleasure.

The company included William Blakeman and family of Zion, P. M. Blakeman and family of Murrayville, Miss Hazel Amittage, C. S. Blakeman and family, Murrayville; Mrs. S. Y. Rimby and daughter, Mrs. Martin Canatsey and sons, Roy Rimby and family of Ceres; John Blakeman and family of Springfield, Mr. and Mrs. Clarence Jackson of Hettick.

Mrs. Blakeman is the mother of six children, and there are twenty seven grandchildren and eight great grandchildren.

FUNERALS**Shirley.**

Funeral services for Henry Shirley, killed Saturday while loading logs on a farm west of Franklin, were held Monday afternoon at 3 o'clock at the Baptist church. The Rev. J. E. Curry of Waverly was in charge. The flowers were in care of Misses Edith Whitlock, Nellie Landers, Grace Tribble and Maude Luttrell.

The burial was made in Winchester cemetery. The bearers were: Claude Jolly, Scott Trambarger, William J. Vail, C. W. Olinger and Ed. F. Seymour. The music was furnished by Mrs. Curtis Scott, Mrs. E. F. Seymour, Mrs. Martin Anderson, with Miss Grace Armstrong as accompanist.

Mention has been made already of Mr. Shirley's death, which took place Saturday as he was engaged in hauling logs from the farm of Sylvanus Scott. Coroner Rose went to Franklin Sunday morning and held an inquest at the family home. The jury brought in a verdict of death thru accidental cause, comporting with the facts already narrated. Serving on the jury were A. L. Baker, Kenneth Woods, clerk; C. W. Mulch, R. R. Mansfield, Steven Seymour and Alexander Whitlock.

MATRIMONIAL**Stewart-Yoakum.**

James Stewart and Miss Isabella Yoakum both of Columbia, Mo., were united in marriage Monday evening at the home of Mr. and Mrs. Frank Taylor, 914 Cox street. The ceremony was said by the Rev. M. L. Mackey and was witnessed by only a few intimate friends. The groom is an industrious colored citizen and is employed by J. Cohen & Son. They will reside in this city.

STAND BURGLARIZED.

The stand of Cosgriff Bros., in Vandalla road near the entrance to Nichols park was burglarized some time Saturday night or Sunday morning. The burglars secured several hundred cigars and a quantity of candy. The theft was reported to the police and Chief Davis has several suspects under surveillance.

Miss Ruth Myers of Yrden is visiting at the home of her uncle, Samuel Myers in this city.

**WOMEN OF U. S. CANNOT
JOIN HUSBANDS IN FRANCE**

Only Chance to Visit Relatives is to Join Red Cross and Serve as War Nurse.

Washington, July 9.—No women will be allowed either to accompany American troops to France or to join them after the army has reached France. This announcement was made today at the War Department in response to a veritable flood of personal and written requests by women members of the families of both officers and men of the Pershing expeditionary force and wives of officers in the United States who may be sent to the western battle front.

"The inexorable rule has been established and will be impartially enforced against the presence of women with the American army abroad," is the only answer that is returned at the department to requests from women to be allowed to join their husbands, brothers or fathers. It is held by the military authorities that France, under existing conditions, is no place for womanhood.

"No exception can be made or will be made," it was said today, "for it is realized that such a privilege granted in one case will serve to let down the bars generally, with the result that much trouble and the assumption of grave responsibility for individual safety during the trip and while abroad, for which the War Department entertains no liking at this stage in the proceedings will result."

The one chance for women to go to France is in the capacity of nurses for the Red Cross, but even in these cases the War Department looks with disfavor upon the presence in France of women from the United States.

Another rule which has been adopted is that there shall not be with the American forces abroad any individual who is not in uniform.

**HIG PAY INCREASE
FOR WABASH WORKERS**

Wage increases granted Wabash mechanics during the last month amount to nearly half a million dollars a year. The advances accepted Saturday by car workers and allied crafts total \$15,000 a month, and those to machinists and allied crafts a month ago \$25,000 a month, making a total of \$40,000 a month or \$480 a year.

Representatives of the car workers and E. F. Needham, Supt. of the locomotive and car departments met Saturday and the workers accepted the terms offered the early part of the week by the company.

Affect 500 in Decatur. The advances are five cents an hour for car workers, including the coach carpenters, painters, upholsters, supply men and their helpers, tender truck men, mill hands, carpenters, air brake men, freight repairers, cabinet makers and respective workers. Others on the repair tracks are included in this raise. Five cents an hour is granted for piece workers at the hourly rate, and seven per cent on schedule rate now in effect. Three and a half cents an hour increase is granted car cleaners and others in train yards. Four cents an hour to car inspectors working on an hourly basis. Monthly workers are granted an advance of \$14.50 a month. These advances affect 1,500 men in the Wabash service.—Decatur Herald.

ARRESTED ON SUSPICION.

Lloyd, alias "Red" Hare and a boy named Daniels were arrested by Sheriff Graft late Monday afternoon on suspicion of being connected with the burglarizing of Cosgriff Bros. stand in Vandalla road near Nichols park. They are being held at the police station for further examination.

MANY STUDENTS ENLIST IN U. S. MARINE CORPS

Entrance of Wm. Berryman and Elmer Lukeman into Service Will Bring Illinois College Quota to Nine.

William A. Berryman and Elmer Lukeman will leave this evening to join the U. S. marine corps, bringing the number of Illinois college men in that branch of the service to nine. Mr. Berryman was accepted several days ago. Mr. Lukeman will undergo examination in Springfield and then the two will proceed to Port Royal, S. C., to report for duty.

Edward Bullard will go to Springfield with Mr. Berryman and Mr. Lukeman, hoping to pass the examination in spite of the fact that he was rejected by government examiners some few weeks ago.

Three Illinois college men, Ray Wilson, Warren Pierce of New Holland and Clay Apple of Tama, left for Port Royal Friday.

Since the beginning of the American nation the marine corps has played an important part. The "first to fight" legend on the recruiting posters is significant. Many a Latin-American revolution and threatened uprising has been put down by the prompt and efficient efforts of these "soldiers of the sea."

I. N. G. MOBILIZATION PLANS BEING PERFECTED

Three Additional Units to Be Organized in State—Summer Program Outlined

With riot difficulties well in hand, Adjutant General Frank S. Dickson today began preparations for the mobilization of the Illinois National Guard July 25, and for the organization of three additional units in the state.

Brig. Gen. Harry R. Hill was left in charge of the East St. Louis situation by General Dickson, who returned from that city Sunday. In addition, the adjutant general gave his attention during the day to a conference on the Bloomington trouble.

That the units of the National Guard, under Colonel Milton J. Foreman of Chicago be kept in Bloomington until after a meeting and a settlement by the persons named to arbitrate the street car strike there, was the request placed before Governor Frank O. Lowden Sunday. The request was granted.

The action of the committee and the basis on which they made their plea resulted from persistent rumors that a tie-up of all industry in Bloomington would follow if no agreement is reached by the arbitration board.

JACKSONVILLE JOURNAL COMPANY

ENJOYS ARMY LIFE WITH COMPANY B

H. Jay Rodgers Writes From Louisiana About What Soldiers are Doing—Compliments for Company From High Officers.

H. Jay Rodgers, who recently enlisted in Co. B, 5th Ill. Infantry and went to Louisiana to enter service, has written a Jacksonville friend enthusiastically of the personnel of the company and the military life as he has thus far seen it. Mr. Rodgers says, "Company B is by no means the same as it was when the members left Jacksonville last March. When you see the men in camp, on parade, up town or anywhere else, you see military men. The camp is pitched on a high hill overlooking the river and you can see for miles around. The men all enjoy watching the sunsets here from this point of vantage and certainly they are wonderful. I don't know about the sunrises being unusual down here, for I have nothing to compare them with as I haven't seen many in recent years.

Officers Compliment Men.
"Majors Wayne and Cladefelter and Col. Wood have been here the past few days to inspect the company. These officers were all very complimentary in the remarks made on the improvement the men have shown in these recent months. The members of the company are all in good spirits and seem to be having a fine time. (Just now a squad is engaged in picking chickens for the Sunday dinner, something a little special.) Near our camp is a spring that is said to have been running without interruption since the days of the Civil war, and the water is certainly about the best I ever tasted. There is not any lack of something to do, for reville comes at 5:30 a. m., and the busy program fills out the rest of the day.

Dress Parade Inspiring.
"Most of the morning is taken up with drilling. In the afternoon the fellows that are not on guard duty have the time more to themselves until 5:30, which is guard mount and mess. Dress parade comes at 7 o'clock. I believe you would agree with me that the dress parade furnishes a pretty and inspiring sight. The company forms and marches to Capt. Owen's quarters to receive orders for the following day. Then retreat is sounded, the flag is lowered and the company passes in review. Then there is a brief drill and dismissal. Those who are not on guard duty and who wish to, get passes and go up town, but when taps comes at 10 o'clock most of the fellows are ready to go to bed.

Says Camp Life is Fine.
"We all sleep on cots in squad tents, with straw ticks, blankets, ponchos and mosquito net. However, the mosquito net is mostly a matter of preparedness as thus far the mosquitoes have not been bad.

"After one week of life with Co. B, I will say that it's fine. If the fellows at home could see the conditions I own here I believe that enlistment would come so rapidly that we would soon have the company at more than war strength."

REV. SCRUGGS TALKS ON EAST ST. LOUIS RIOT.

The Rev. E. L. Scruggs touched on the recent riots in East St. Louis in his sermon at Mt. Emory Baptist Church Sunday evening. Mr. Scruggs emphasized the need of impartial enforcement of the law whether the violators be white or black. He also said that in such cases the true facts should be sought and that the interests of one class should not be set above the interests of the people in general. Rev. Mr. Scruggs also urged some legislation whereby negroes who take up work in factories should be paid the same wage as the white man. In this way he believed that much labor trouble could be avoided. The remedy for such riots as that which occurred in East St. Louis, the speaker believed could be avoided by the appointment of a social service committee composed of the best white and colored citizens in the community to take up problems which arise between the races and settle them before they reach the stage that caused the East St. Louis riot. "Christian charity," said the speaker, "demands more be done for the negroes in this country rather than send large sums of money to be used in foreign missionary fields."

Conditions at elevators were especially interesting yesterday for \$1.83 was being offered for new wheat and \$1.75 for old corn. It has been a long time since there was such a small variation between the price of wheat and corn. The elevator price offerings for wheat have varied in the past few days from \$1.75 to \$1.83, and very few sales have been made. It is quite evident that a great majority of the farmers believe that it will pay them to store their wheat, and so more of the grain will go into granaries and into the stock than has ever been true before.

HIGH PRICED GRAIN FOR STOCK FEEDING

Farm Paper Says Corn Fed to Hogs and Cattle now Means Loss—C. B. Joy's Feeding Experience—Corn and Wheat Price Offerings Almost the Same.

Wallace's Farmer in a recent issue says that with the present price of corn and fat stock that the corn feeder is doing so at a loss of almost \$4 per hundred upon the fat pork he is producing and a loss of over \$26 on each 1300 lb. fat steer. The publication goes on to say that such a condition cannot continue without having a very serious effect upon the amount of livestock in the country.

Charles B. Joy in discussing this statement, took issue with it and expressed the view that many farmers are making more money by feeding their grain to hogs and cattle than they would otherwise notwithstanding unprecedented high prices now offered for grain. Mr. Joy, by the way, recently marketed 12 head of steers that undoubtedly made him good money. They were three year olds raised on his own farm and the twelve of them together had not eaten more than 100 bushels of corn. They were kept on grass eight or nine months a year and were fed silage the remainder of the time.

These steers just marketed brought \$181.25 a head. The check Mr. Joy received for the twelve was as large as he has sometimes received in past years for three times as many cattle. For a long time Mr. Joy has made it a practice to raise cattle on his own farm and to keep them until they are ready for shipment to the big markets. In this way he is always assured of the right quality of feeding stock, and, as every feeder knows, a great deal of the success of feeding depends upon the quality of the animals.

The Wallace's Farmer article referred to above after commenting on the assertion that the stock farmer is losing money in feeding corn to hogs or cattle at present prices says:

"Such condition can not continue without having a most serious effect on the amount of live stock in the country. The fact that many feeders are using corn that they grew themselves, or that they brought at around a dollar a bushel, relieves the situation to some extent, but naturally they will not hold the stock in the feed lot a minute longer than is necessary to put it in fairly good, marketable condition. Because the corn will bring much more on the market than when fed to stock.

"To what extent, if at all, this unsatisfactory situation may be due to an understanding between the packers and the officials at Washington, we do not know. The hint of such an understanding, given by Mr. Skipworth, in the interview in the Butcher's Gazette was most disquieting. If the powers that be think it wise to reduce the number of live stock in the country, on the theory that grain affords cheaper food as grain than in the form of meat, then, in all fairness, the farmer should be told so in plain words, instead of being urged to increase his live stock as rapidly as possible. "If no outside influence is at work we may reasonably expect to see the relation between corn and stock prices adjust itself when the new crop is ready for feeding."

Harvest is in progress in Morgan county and in some fields the binders are cutting wheat and in others oats. This condition is unusual and is due partially to the wet season and also to the varieties of wheat planted. A well known farmer said yesterday that the oats which are being harvested are of the early white variety. The Big 4 and Texas oats and others of that class are somewhat later in maturing and in fact, many fields of these varieties are still quite green. Some wheat is ripe and ready for harvesting, while other fields cannot be cut for at least another week. This same farmer said that usually the hard wheat is later than the soft but that this year in a number of instances conditions have been reversed, the hard bearded wheat maturing before other varieties.

Conditions at elevators were especially interesting yesterday for \$1.83 was being offered for new wheat and \$1.75 for old corn. It has been a long time since there was such a small variation between the price of wheat and corn. The elevator price offerings for wheat have varied in the past few days from \$1.75 to \$1.83, and very few sales have been made. It is quite evident that a great majority of the farmers believe that it will pay them to store their wheat, and so more of the grain will go into granaries and into the stock than has ever been true before.

The future price of corn is attracting a great deal of attention among farmers, the December quotation being \$1.18. Some farmers believe that the price will be higher when that time comes and others are figuring that \$1 to \$1.05 will be about the price offered. In reality there is nothing on which the farmer can depend for a certainty. These are the times of but a few weeks—or at most, months—might entirely change conditions. One reason advanced for the record high price of corn for present delivery is that the distilleries have been making heavy purchases in the past weeks. It is said that the distillers have been safe in paying any price because they had the assurance that if the government closes up their business that all stocks on hand will be taken over at a price which will allow them a certain percentage of profit above the cost.

The government forecast on crops is very encouraging, indicating that the agitation for planting more acres and reater varieties has had its effect.

CAPPS & SONS BEGIN WAR CONTRACT WORK

Will Produce 10,000 Yards of Khaki Overcoating Cloth Monthly—Shipment to be Made to St. Louis

Mention was made several weeks ago of the fact that J. Capps & Sons had entered into a contract with the government for the production of khaki overcoating cloth. The necessary wool and other supplies were purchased and recently the samples submitted were approved. Mill employees are therefore busy now making this cloth, which must be furnished at the rate of 10,000 yards per month. That is the monthly quantity called for in the contract. Ten thousand yards of cloth will make about 4,000 overcoats. The goods will be shipped from Jacksonville to the commissary department of the U. S. army at St. Louis.

SUCCESSFUL REHEARSAL
The dress rehearsal of Zora Gale's "The Neighbors" held last evening at Grace M. E. church, was quite successful. A musical program in which Miss Mabel Wyatt and Robert Shoemaker will appear, has been arranged in connection with this play, which will be given at Grace church this evening.

PICNIC AT PARK

The Philathea class of Central Christian church, taught by Miss Mary Dewees, took supper at the lake Monday evening. All enjoyed a most excellent time.

Production will exceed all previous records unless weather conditions change very quickly. The farmer is assured of a high price for all that he has to sell. That conditions are abnormal was well indicated yesterday when the grain markets did not reflect at all the embargo order of the president, placing restrictions on the export of food stuffs, along with many other things. Ordinarily such action would have been almost certain to run down prices many points, but the grain markets Monday showed no effect of the embargo order.

WEDDING ANNOUNCED

A number of Jacksonville people have received announcement of the marriage of Miss Eva Opal Burgett to J. A. Ellison at Albuquerque, N. Mexico. The ceremony was solemnized there July 7. Mrs. Ellison, who is a daughter of Mr. and Mrs. Scott Burgett of Newman, Ill., was for a number of years a student at Illinois Woman's college. The new home is to be established in Los Angeles.

A POWERFUL SERMON

At the Congregational church Sunday morning, Rev. Geo. T. McCullough of Chicago delivered a powerful discourse pertaining to the present conflict. He gave forth no uncertain sound regarding his position and the stand this country has taken in the conflict. The United States could consistently do no less than enter the conflict for freedom and democracy in the old world and the subjugation of ruthless governments so utterly lost to all the dictates of humanity.

He especially emphasized the fact that not alone is it our duty to send men to the battle front but every one at home devotes a duty great and imperative, to supply means as far as possible, food, equipment, Red Cross, Y. M. C. A. and the like and to give vigorous moral support, ferret out traitors and spies and thus hasten the desirable consummation of the most awful conflict the world has ever known.

Mr. and Mrs. W. C. Springgate and daughter of Oshkosh, Wis., arrived in Jacksonville yesterday and will be guests for several days at the home of Mayor Rodgers on South Diamond street. Mr. Springgate is now one of the proprietors of the Oshkosh business college and the school is in a flourishing condition.

LOOP DISTRICT PAVING CASE IN COURT

Objections Now Being Heard Before Judge Thomson—Some Property Owners Claim New Pavement Would Damage Them

The hearings on objections to proposed paving in the business district was begun before Judge Thomson in the county court Monday. W. T. Wilson and John M. Butler are appearing in behalf of the objectors and the city is represented by the city attorney, John J. Reeve, who is assisted by Hugh Green. In the objections as filed there were four points and three of these were overruled by the decision of Judge Thomson. The question upon which evidence is being taken and argument will be made is that the tax against certain pieces of property is greater than the resulting benefits. The objections are being heard by a jury which includes A. D. Conlee, G. W. Siegfried, W. F. Carroll, James McDonald, M. M. Wood, Fred Jameson, T. J. Stout, E. M. Davies, Harry Johnson, John Snyder, T. P. Langdon, Jr., M. R. Smith.

According to the statement of some of the witnesses appearing on behalf of objectors, the pavement in certain instances will actually result in damage to the property instead of benefit. The list of objectors includes C. F. Tonn, J. A. Carpenter, J. B. Gause, estate of Caroline Sieber, Francis Ricks, estate of William Nunes, P. H. Conerger, Mary Smith, Annie Brown, James Rabbit, J. H. Zell, J. H. Seaver, J. Cherry, M. Ferry, T. H. Buckthorpe, R. R. Buckthorpe, William H. Anderson, A. Vagis, Hopper & Sons, J. B. Lindsey, George Jameson, Anna Lohman and E. F. Baker.

If the jury at the conclusion of the evidence brings in a verdict approving the assessment roll as spread, then the board of local improvement will proceed to advertise for bids for the work. If changes are made then the assessment roll will be referred to W. B. Rogers, the commissioner who spread the assessment, for correction, and then another hearing may be had. It was originally proposed to improve the business district by retopping the present pavements with tarvia. At the hearings a great many objections were filed to this plan and the board of local improvement then determined to put down an entirely new concrete block pavement. This type of pavement is of course much more expensive than the work originally proposed.

HARDIN AVE. WALK THEME OF ARGUMENT

Ordinance Providing for Walk in New Location Passed—Report of Health Warden Shows Measles Prevalent.

Most of the time at the council session Monday morning was taken up with a discussion of the proposed building of concrete sidewalks in Hardin avenue. The discussion was particularly relative to that portion of the walk on the east side of the street from East College street to Rount street.

M. Heffernan, a property owner appeared before the council relative to the matter. Mr. Heffernan said he had started to lay the walk in compliance with instructions of the city council but the engineer had stopped the contractor. He asked the council not to set the walk out as proposed in the new ordinance that had been drafted for the purpose.

In replying to Mr. Heffernan Mayor Rodgers said that after the council had passed the first ordinance the city attorney had given an opinion that E. N. Kitner who owns the property at the Brook could not be made to build a retaining wall which would be necessary if the walk was placed on the line. Mayor Rodgers said for this reason a new ordinance had been prepared and was now up for a second reading and passage.

Mr. Heffernan was very emphatic in his protests. He was of the opinion that Mr. Kitner should not be allowed to spoil the looks of the street because his property happened to be only a cow pasture.

When the ordinance was given a second reading and a motion made to adopt it Commissioner Cox said that he did not think the council was treating the property owners right in passing the present ordinance. He was of the opinion that Mr. Kitner should be made to put in a retaining wall to hold his walk where it should be. He said for this reason he would vote no. Commissioner Martin also voted no. Commissioner Martin said after the meeting that his reason for voting against the ordinance was that he did not like to see walks so much out of line.

J. H. Cochran, roadmaster of the Chicago & Alton, was present and asked the council about the ownership of a piece of property adjacent to the road's right of way near the stock pens in the northeast part of the city. Commissioner Cox said that the land formerly belonged to A. Yates and had been bought by the railroad company and he was of the opinion that it still belonged to the company. Mr. Cochran said that it was desired to cut some trees on the property and he wanted to find out about the ownership before proceeding. He was told to go ahead with the work. Mayor Rodgers also asked Mr. Cochran to see to the repairing of the crossing of the company in East Chambers street.

Officers' Reports.
The reports of Dr. A. M. King, city health physician, and Justice W. T. Dyer were presented and received and placed on file.

Dr. King reported a total of 40 deaths. Twenty males and twenty females. Residents 14; nonresidents 26. Under one year, 1; one to five years 1; five to twenty years 1; twenty to fifty years 11; fifty to seventy years, 11; over seventy, 3. Contagious diseases were reported as follows: Measles, 33; Diphtheria, 4; Smallpox, 3; Typhoid fever, 3. Justice Dyer reported fines collected, \$50.90; city costs, \$31.60; J. P. costs, \$48.80.

Mayor Rodgers reported that the Standard Paving company's men were here and had started work on the Prairie street paving. He said the work would be started first on North Prairie street. He also reported that the street car company would start in a few days with its part of the paving on South Main street.

Commissioner Vasconcellos reported that the work of drilling test holes would begin as soon as a six inch drill arrived. He also called attention to two bad leaks in the dam at Nichols park and said they should have attention.

The ordinance for sidewalks in Hardin avenue was then brought up for a second reading. After the discussion referred to above a vote was taken and the ordinance was adopted by a vote of 3 to 2. Commissioners Cox and Martin voting no. The council then on motion adjourned.

"Old Jacksonville"

A Grand and Glorious Occasion.

Monday, July 9th, 1917 witnessed one of the most animated and touching tributes to good citizenship and genius that Jacksonville and Morgan have known since Andrew Jackson asked whom they were going to name the town for, or Murray McConnell and Dennis Rockwell prevailed on Theodore Roosevelt to allow this county to be called for Gen. Morgan.

The occasion commemorated was the sixtieth anniversary of the coming of the writer of "Old Jacksonville" sketches from Pike county, to be a resident of Morgan. At first it was intended to have a pageant illustrating the event. But the interview between Col. Roosevelt and Mr. Gompers put that out of sight, so Mr. Creel censored the suggestion, and the idea was given up.

These two historical points are possibly derived from the recent first volume of the "Centennial History of Illinois."

But Mr. Creel with true devotion to his journalistic experience, and having his war duties in mind, gave orders that the whole thing should be read from a sheet of blank paper by S. W. Nichols.

As usual on important occasions, the people began coming to town, and gathering in various places as was done at Cape Fear when the 7 o'clock whistle sounded, and at the Deaf and Dumb as its "blower" called the superintendent to the breakfast room. Even with retiring modesty, owing to Civil Service rules Harry Montgomery slung away his robe-du-nuit, and became instinct with life in these days of Democracy from China to Russia, and of the Wilson restoration.

It would be a cold day when Democracy was at stake that Franklin did not respond, and a delegation from that place came in on an early hand-car, propelled by enthusiasm. Woodson was not much behind although Bill McCormick did have to represent the precinct and town, as the farmers were "laying by" their corn. Perhaps if they had got up and come in as they used to do when Stephen A. Jollied the voters, it might have been different.

Arctadia, "loveliest village of the plain" as long as it kept Ben Upham and some others there got the call from Capps' mill, mixed with Jake Cohen's explosions, and did not dare to cross the Mauvaisterre.

Geneva, "a post village in Morgan county, Illinois, seven miles west of Jacksonville," shook off its inertia, or whatever has covered it for the past thirty or forty years, and said it would have come in, but had been scared out by an auto-load of Jacksonville guys looking for it last week.

Meredosia was coming, but the people heard a steamboat coming up the river, with its calico playing "Nelly Bly," and could not leave. Bethel could not come either because Bill Callon was not there to give one of his appeals for Democracy. And, besides, Bethel isn't there any more. Chapin wanted to come, but there

was a red crossing of the Wabash and Q there, and the inhabitants only sent Arthur French—who would have come anyway.

Still it was a great occasion—the celebration—and those who attended felt well repaid for all they got. In fact, it was "a hot time in the old town"—mercury about 90, and the corn cracking up so fast that the orators could scarcely be heard.

John Clark said it reminded him of the days when John W. Springer and Bill Bryan began making stump speeches—there was so much enthusiasm. Billy Dalton got sore at this, and said the greatest times he ever heard of here were when he swung his baton and led the Fifth Regiment Band up to the Fair Grounds. Mr. Dalton is to be censured for allowing his selfish feelings to interfere with references to things in which he wisely—took no part.

Well, this is all neither here nor there. The celebration was the thing to be told about, instead of the days when the pioneers came on foot, on horseback and in maver-wagons. The day dawned auspiciously—it always does in newspapers. In fact there was no reason why it should not, as there was no rain at all.

The drum corps called those together who had nothing else to do, and the embattled host with Hume Whitacre for the Journal, with a pocket pad of paper, and Priest of the Courier, with a roll of paper hastily grabbed from their revolving press, started up street.

They marched and marched, other thousands falling into line, and many dropping into the ditch now distinguishing West State Street.

With roars of cheering the thousands called the hero of "Old Jacksonville," crowds trespassing on Hackett's yard, on Sam Anderson's porch, on top of Bill Aleck's palatial new residence, also filling the frameless windows to suffocation.

We regret to be compelled to state that the Huckleberry yard was ruined by the ruthless tramping, reminding one of the irruption of the Teutons on ancient Rome.

The committee on doing things, consisting of sixteen self-appointed orators from the legal profession, marched up to the doorway of the hero of the time, and sounded the tin-tin-tin-tin-tin door bell, which with electric clearness, gave back a hollow sound. Finally, one of the patriots, who could read, described a personal card on the screen door, which said:

"Mr. O. J. has gone to enjoy a feast of facts with Mr. Gates Strawn, mayor of Strawtown."

And so the celebrators gave it up, returning wiser and better men, it is to be hoped, to their downy couches or loafing places, and the celebration was a thing of the past.

FANCIFUL PICTURE OF WORLD AFTER THE WAR

German Scientist Describes Imaginary Inventions Which Will Solve Many Problems—Sees Friendly International Relationship Existing.

Amsterdam, Netherlands, June 9.—(Correspondence)—What will the world be like after the war? A German scientist's imaginative after-war picture is the feature of the latest number of the German review, "Zukunft." The author, Professor Moritz Lesser, is a member of the faculty of engineering of the University of Bonn.

The Professor pictures, in fanciful style, a world at peace, in friendly international relationship, making use of the technical discoveries which have been made during the war for the development of commercial enterprise. The article in part is as follows:

"Three months after the end of the war, the directors of the leading banks and corporations of Germany held a meeting to the number of 3,000 in the Reichstag, with the Home Secretary for Chairman, and founded a company 'For the Development and Use of Inventions Discovered During the War.' The object of the company was to compile in peace the technical progress which had been accomplished under the stress of war, and the capital subscribed was forty times as great as required.

"One object of the company was to build submarines for pleasure trips and to search for treasure lost during the war. The great shipping companies followed suit by building deep-sea submarines, in which one could sail without seasickness. These ships traveled on a cable laid under the sea, and were worked by an electric current from the land. They journeyed at incredible speed, making the journey from New York to Hamburg in 48 hours.

"It was found possible to build a submarine which sank to a depth of more than a mile, and from this raising the international company for raising the ships sunk during the war. The work was an immense success, and large sums of money were made from this salvage work. There was also huge profit in taking passengers in these ships for trips of exploration and sightseeing along the bottom of the sea. Ships were found which had gone down centuries ago, and one expedition recovered the treasure of a whole continent which was sunk in a Spanish Armada. Moreover, rich veins of coal and iron and other minerals were discovered in the sea.

"Meanwhile wireless telegraphy was perfected until it was possible to send a current around the entire

world. It was also possible to supply airships with the current. A company was founded for a passenger and ariel service without petrol, which began serving all important parts of the world. The parcel traffic no longer needed human pilots, because the airships were guided from the land by a simple wireless contrivance.

"At the same time, the Peace Conference at the Hague, which represented all civilized nations, decided on the complete disarmament of all the world without any restrictions. By this time every great power had established a fleet of unmanned aeroplanes loaded with thousands of bombs which were to be let loose by wireless current at the first mobilization of the enemy over all his important towns. In this way every hostile town and base could be reduced to ruin in a few hours. This meant that there could no longer be any war."

Other imaginary inventions described by writer include an American "spectral film" which brought the pictures of distant events as they happened to the theatre and private house. Another invention dispensed with the use of coal and gas by preserving the heat and light of the sun. Traffic problems in the world's great cities were solved by setting pavements and streets in motion. The article concludes:

"Finally, as inventions reduced the trouble of living more and more, the people began to lose the use of their limbs, since everything was done for them, a world conference was assembled which forbade anyone inventing anything more."

BIDS FOR COAL

Bids are hereby asked for supplying the city light plant and pumping station with coal for the contract year, which will begin August 9, 1917. Bids are desired for the light plant on mine run, No. 4 and 5 washed, egg 1 1/4 inch screenings; for pumping station mine run and steam lump.

The council reserves the right to reject any and all bids, which will be received until 10 a. m. Monday, July 16th.

INDIANS HAVE BIG CLAIMS
Bemidji, Minn., July 9.—Claims aggregating \$10,000,000 for lands and timber sold to the Federal government by the Chippewas of Minnesota and for which the Indians say they have never received payment will be one of the business matters to come before the council of the Minnesota Chippewas, to open here tomorrow. The gathering will be attended by upwards of 100 delegates from the Red Lake, Leech Lake, White Earth, Fond du Lac and other reservations.

GRAND LODGE I. O. O. F. TO MEET IN LOUISVILLE

Legislation on Important Matters Will Confront Annual Convention of Order in September—To Co-operate With Red Cross in War Relief Work—Vast Sum Will be Expended

Louisville, Ky., July 7.—Provision for the care of members of the order who may be injured at the front after the American army lands in France, and the care and maintenance of their dependents at home will engage the attention of the Sovereign Grand Lodge at its annual convention in Louisville next September, according to a statement of Grand Sire Frank C. Goudy, of Denver, issued thru the local committee on arrangements.

The head of the order dwells upon the importance of the meeting to Odd Fellows, points out that transportation companies can handle the expected 5,000 delegates and, apparently to correct any misunderstanding, makes the definite statement the convention will be held.

"Never in the history of the order," the statement recites, "was there so much depending upon the assembling of American and Canadian Odd Fellowship in annual convention. In addition to transacting the ordinary business that will come before the Sovereign Grand Lodge, there will be a large volume of work to be done by our order acting in co-operation with the Red Cross and like associations in furnishing relief to all who may be subjected to the horrors of this war. The fact that Odd Fellows will soon go to the front in protection of home and of civil and religious liberty, makes it our highest duty to provide for them when injured in battle, failing in health or otherwise requiring the fraternal and helpful care of our fraternity. The protection of our widows and orphans at this time is more essential than ever, so the duties devolving upon us relatively are greater."

"In view of existing conditions it is most imperative that the Sovereign Grand Lodge meet this year for legislation on important matters that will confront us. Over \$500,000 was contributed to the relief of brethren during the past year and with the world's calamity forced upon America the sorrow to be extended during the war will run into great figures."

"In view of the fact that transportation companies will not be largely occupied in handling troops, war material and supplies in the early part of October, when the cantonments will open, the Sovereign Grand Lodge will hold its session at Louisville, Kentucky, September 17-22 as originally scheduled."

WOODMEN OF THE WORLD

Atlanta, Ga., July 9.—Atlanta today began the entertainment of the biennial meeting of the Sovereign Camp, Woodmen of the World, one of the largest fraternal and beneficiary orders in the United States. The sovereign camp is made up of delegates from all the state camps, which in turn represent upwards of 12,000 local camps and an aggregate membership of nearly three quarters of a million. The Woodmen Circle (ladies' auxiliary) is also in session. The annual election of officers will take place Thursday. The convention will probably be in session for a week or ten days.

BUSINESS COURSES FOR WOMEN

New York, July 9.—The important
place women are destined to take in
business as a result of the heavy
draft upon men for the war is recog-
nized by Columbia University in
the arrangement of courses for its
summer session opening today. The
usual courses in teaching and prac-
tical arts have been elaborated, but
the most important change appears
in the courses offered to women for
the first time in banking, higher
economics, advanced secretarial
courses and corporation finance.

**ALEXANDER WON CLOSE
GAME FROM ATHLETICS**

Took Sunday's Contest With Score
of 1 to 0—A Pitchers' Battle.

Alexander, July 9.—Alexander de-
feated the St. Joseph Athletics of
Springfield Sunday by a score of 1
to 0. It was one of the fastest and
best games ever seen in Alexander
and was witnessed by more than 200
spectators.

The game was a pitchers' battle
between Kitchen of Alexander and
Chestnut of St. Joseph, with Kitchen
having the better of the argument.
He allowed but two hits and struck
out 17 men. Chestnut was almost
as good. He did not strike out as
many men but he held Alexander to
four hits and their lone run came in
the fifth inning. Both teams played
an excellent game in the field, St.
Joseph having one error and Alex-
ander two.

Alexander will play the Springfield
Bunnies next Sunday and a close
contest is expected. The ball team
will give a dance in the park at Alex-
ander next Thursday evening. The score:

EDITORS IN MINNEAPOLIS

Minneapolis, Minn., July 9.—Right
royal has been the reception accorded
by the newspaper fraternity of the
Twin Cities and citizens generally
to the members of the National
Editorial Association and the visit-
ors who have accompanied them,
who in numbers exceed one thou-
sand. This morning the 32nd an-
nual convention was called to order
in the assembly room of the West
Hotel. Past President B. B. Herbert,
of Chicago, opened the proceeding
with an invocation. Addresses of
welcome were delivered by Governor
Burnquist and Mayor Van Lear and
response for the visiting editors was
made by J. Clyde Oswald of New
York. The remainder of the initial
session was occupied with the presi-
dential address of E. H. Tomlinson
of Morristown, N. J., and the annual
reports of Secretary George Schloss-
er, of Watertown, S. D., and other
officers of the association. At the
subsequent sessions of the con-
vention, which will continue until
Thursday, the editors are expected
to thresh out many questions involv-
ing newspaper policy in relation to
the war.

A TRIP TO GREENFIELD

Sunday Mr. and Mrs. J. L. Riggs
and family; Mr. and Mrs. Herbert
Riggs went in their Overland auto
to Greenfield to visit Mrs. Frank
Arnold and family. Mrs. Arnold is
a sister of Mrs. Herbert Riggs.

**Lemon Juice is
Skin Beautifier,
Also a Whitener**

Many women use just the juice of
lemons to bleach or whiten the skin,
but pure lemon juice is acid, there-
fore irritating, and should be mixed
with orchard white.

At the cost of a small jar of ordi-
nary cold cream one can prepare a
full quarter pint of the most won-
derful lemon skin softener and com-
plexion beautifier, by squeezing the
juice of two fresh lemons into a bot-
tle containing three ounces of orch-
ard white. Care should be taken to
strain the juice through a fine cloth
so no lemon pulp gets in, then this
lotion will keep fresh for months.
Every woman knows that lemon juice,
is used to bleach and remove such
blemishes as freckles, sallowness and
tan, and is the ideal skin softener,
smoother and beautifier.

Just try it! Get three ounces of
orchard white at any pharmacy and
two lemons from the grocer and
make up a quarter pint of this sweet-
ly fragrant lemon lotion and mas-
sage it daily into the face, neck,
arms and hands. It should naturally
help to bring back to any skin the
whiteness, the sweet freshness and
flexibility of which it has been rob-
bed by carelessness or trying atmos-
pheric conditions.—Adv.

MR. AUTO OWNER!

Why throw your old auto tires away when they are good for
2500 to 6500 more miles.

My method of taking two old tires and making one good one is
saving thousands of auto owners from 50 to 75 per cent on their bills.

Send me two old tires and I will make one good tire that you can get from 2500 to
6500 more miles out of. In sending me tires be sure one has a good rim no matter how
bad the tread is worn. For the other one that has a good tread no matter what condi-
tion rim is in.

If You Haven't a Tire with a Good Tread I Can Furnish You One

PRICES FOR DOUBLE TREADING
